FOI reference 094/17

Date Received 13/09/17

Request:

Please can you tell me how many inspection officers you employ/have employed, and whether they are full time or part time, for every year from 2000 to the present day.

For clarity, inspection officers refer to officers who carry out audits of fire risk assessments of buildings.

Please also tell me how many inspection officers in each year since 2000 are "grey book" (ex fire fighters) and which are "green book" (employed directly into specialist roles without a fire fighting background).

Response:

It is very difficult to say how many are grey and green in a given year due rotation of staff within departments. It may be possible on a given date, but not over a year. Currently the make up of grey and green is – Green 8, Grey 6.
