FOI reference 029/18	Date Received 20/03/18
Request:	
Dear Staffordshire Fire and Rescue Service, Please provide details, including outcomes, of all fire safety compliance inspections conducted on high-rise residential buildings since 14 June 2017.	
Response:	
Since 14 June 2017 all domestic high rise premises were visited to check specifically for the presence of ACM cladding, of which none was found in Staffordshire. All domestic high rise premises are due a full fire safety inspection (fire safety audit) in 2018 as part of our Risk Based Inspection Programme.
