(new policy / review etc)		

An PIA involves analysing the effect, or potential effect, of the way we do our business upon groups that share protected characteristics as defined in the Equality Act 2010. This requires us to look at the equality data which we capture or have access to and to consider the outcome of our community engagement. We need to assess whether our policies and practices show 'due regard' for the three aims (see below) of the Public Sector Equality Duty (PSED). The analysis should highlight effects that *increase* equality, *decrease* equality or have *no impact* upon equality across the protected characteristics. Its purpose is not just to paint a picture, but to *identify practical steps* to improve our performance by:

- (a) Eliminating any unlawful discrimination,
- (b) Advancing equality of opportunity and
- (c) Fostering good relations between different groups.

1. Briefly describe the purpose, aims and objectives of the policy/activity: 1	
Who is the policy/activity aimed at: (communities, staff, partners etc)	
(commanded, stan, paraners sto)	
Who is responsible for the policy/activity: (Directorate/Department/individual)	

- 1. For 'policy': any new and existing policy, strategy, services, functions, work programme, project, practice and activity. This includes decisions about budgets, procurement, commissioning or de-commissioning services, service design and implementation.
- 2. Socio economic is not a Protected Characteristic under the Equality Act 2010. We will however demonstrate due regard to it because as a risk factor poverty has a significant contributor to inequality indicators. Also when present alongside a PCs or multiple PCs the risk increases exponentially

Equality Statement

Clearly explain and provide supporting evidence to show how the policy/activity satisfies the three aims of the Public Sector Equality Duty (PSED) and DOES NOT cause or have the potential to cause a NEGATIVE (detrimental) effect:		
Where the policy/activity DOES Characteristics MUST be consider	or has the POTENTIAL TO have a NEGATIVE (detrimental) effect indicate which of the Protected dered:	
Describe the	NEGATIVE (detrimental) effect and provide supporting evidence for your rationale *

Disability		
Gender reassignment		
Marriage or civil partnership		
Pregnancy or maternity		
Religion or belief		

- 1. For 'policy': any new and existing policy, strategy, services, functions, work programme, project, practice and activity. This includes decisions about budgets, procurement, commissioning or de-commissioning services, service design and implementation.
- 2. Socio economic is not a Protected Characteristic under the Equality Act 2010. We will however demonstrate due regard to it because as a risk factor poverty has a significant contributor to inequality indicators. Also when present alongside a PCs or multiple PCs the risk increases exponentially

Race	
Sex	
Sexual orientation	
Socio-economic disadvantage 2	

^{*} NOTE: Where any NEGATIVE (detrimental) effects are likely to occur:

- (a) For the policy/activity to continue corrective actions/amendments **MUST** be taken to prevent/minimise unlawful discrimination
- (b) An action plan **MUST** be completed (next section)
- (c) Where a negative (detrimental) effect can not be avoided, continuation of the policy/activity (with or without amendment) **MUST** be justified

Action plan

This action plan **MUST** accompany the policy/activity and be used continually to assess any negative (detrimental) effects resulting from the delivery of or amendments to the policy/activity based on customer feedback and evaluation.

Negative/detrimental effect	Action needed to prevent/minimise it	By who	By when	Complete (tick)

^{1.} For 'policy': any new and existing policy, strategy, services, functions, work programme, project, practice and activity. This includes decisions about budgets, procurement, commissioning or de-commissioning services, service design and implementation.

^{2.} Socio economic is not a Protected Characteristic under the Equality Act 2010. We will however demonstrate due regard to it because as a risk factor poverty has a significant contributor to inequality indicators. Also when present alongside a PCs or multiple PCs the risk increases exponentially
